

## *Internet Safety Homework Task*

*To be handed in by 14<sup>th</sup> February 2017*

*Did you know that Tuesday 8<sup>th</sup> February is Internet Safety Day?*

*Your homework task over the next two weeks, is to produce a piece of work about 'Internet Safety'. This will help others to understand more about staying safe online and to show what it means to you.*

*Since September, we have looked at many different ways to do this, such as having safe passwords and what information you should share with people online. We have also discussed who you should talk to and befriend online, using emails safely as well as lots of other advice which has been included in a leaflet that was recently sent out to parents. (This leaflet can be found on the home page of our school website, as well as the News & Events tab, if you need another copy.) We're sure that when you talk to your parents about it, they will have lots of ideas too!*

*Your completed tasks will be used as a display in the ICT Suite to remind everyone of the need to stay safe online and how it can be done. You can choose which way to present your ideas, which do not have to be created on a computer, but remember that they will need to be fixed to the wall for our display!*

*Some suggestions are: -*

- ◆ A leaflet*
- ◆ A poster*
- ◆ A PowerPoint presentation (slides can be printed and used as display)*
- ◆ A booklet*

*Please come and see us if you need a few memory joggers. Remember that this homework has to be handed in by 14<sup>th</sup> February.*

*Be creative and stay safe online!*

*Key Stage 2 staff*
