Curriculum Overview

This term's overarching theme is Science and Technology, with the core concepts being cause and effect. Many of the classes have launched their project with exciting opportunities for the children to begin to ask 'I WONDER' questions linked to their project title which are then incorporated into the project title. Please keep looking at the Clasdojo as we know we have many parents who work in the field of science and technology and we are eager to invite you into school to share your expertise with the children and help to inspire them to have an interest in these subjects for when they are older.

Sounds Write Workshop

I would like to thank the staff and parents who attended the Sounds Write workshop. I hope that it helped to give you an insight into the 'how' and 'why' of the programme. I will upload the presentation separately to the Clasdojo. We would really appreciate it if you could provide some feedback if you attended on the day to help us shape future workshops.
